DETAILED ACTION

1. According to paper filed on Jan. 7, 2009, the applicants have amended claims 5-7 and furthermore, have added new claims 9-11.

2. Claims 1-11 are pending in the application.

Response to Arguments

3. Applicant's arguments filed on Jan. 7, 2009 have been fully considered but they are not persuasive regarding prior art rejection of claims 2, 4 and newly submitted claims 9-11. The examiner does not agree with the applicants arguments that claim 2 recites the features of " An electron injecting material " and therefore, is not anticipated by the cited reference. Claim 2 is directed to compounds of formula (2) and this compound is being used as electron transport material (according to the cited patent) in a layer of luminescent device. The cited reference is also directed to electroluminescent device and also uses this compound in layer 5. Furthermore, applicants attention is drawn to examples 8 and 1 (see columns 23 and 20-21). According to example 1, magnesium was vacuum co-deposited on the electron transport layer (see col. 21, lines1-5) containing compound 88 (electron transport material). Thus, the layer 5 of the cited

Art Unit: 1625

patent contains compound 88 as well as alkali-earth metal (magnesium) and therefore, claims 2, 4 and 9-11 are anticipated by this reference.

Conclusion

4. Rejection of claims 2, 4 and newly added claims 9-11 under 35 U.S.C. 102(b) is maintained for the reasons of record.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
